Attn: John Kemmerer

Dear John:

In response to your letter regarding property owned by myself & Lucille Ferris the following is in answer to your request for information:

1. The land in question 9620 & 9630 Santa Fe Springs Rd., Santa Fe Springs, was purchased approximately in 1961, or 1962. The size of the parcels is:

9620 - 100 X 240'

9630 - 107.5 X 240'

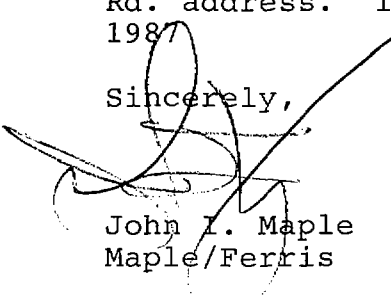

Total approximately 49,800 SF.

2. When the site was purchased it was level. We did not dump, store, or generate any hazardous materials.
3. Subsequently, the property was developed and three buildings were constructed on the property. The buildings are rented at this time.

To my knowledge, no hazardous waste has been generated, no storage or disposal of hazardous material has occurred during the time I have owned the property.

Incidentally, your letter to me was mailed to the Santa Fe Springs Rd. address. I didn't receive your communication until December 16, 1987.

Sincerely,

John I. Maple
Maple/Ferris
